📁 EXPERIENCE

Software Engineer — Idlewild Digital (On-site)

Mar 2026 – Present

- **Infrastructure:** Dockerized and redeployed production Django services across AWS, GCP, and VPS; resolved container startup-ordering failures at the infrastructure level.
- **Payments:** Refactored the Stripe integration for SmallsLive (3 NYC jazz venues) to support 3D-Secure authentication end-to-end.
- **LLM Platform (AYO):** Migrated chat storage from LiteLLM to LibreChat, integrated Keycloak SSO with JWT refresh-retry, and shipped N+1-free streaming CSV export via Python generators.

Backend Developer — Idlewild Digital (Remote)

Jan 2024 – Feb 2026

- **LMS backend:** Built the majority of a Django REST Framework LMS — fine-grained RBAC, secure data handling, and automated PDF certificate generation via WeasyPrint.
- **Performance:** Eliminated N+1 query bottlenecks in PostgreSQL with `select_related/prefetch_related`; built Crabarian, a Python ETL pipeline automating data ingestion end-to-end.
- **Full-stack:** Integrated Vue.js with Django for American Provost Connect; maintained architectural consistency through unit tests and code review.

Python Intern — Idlewild Digital

Aug 2023 – Dec 2023

- Delivered the end-to-end SDLC of the "Daily Updates" internal reporting system on Linux/Unix; promoted to Backend Developer in 5 months.

📄 PROJECTS & PUBLICATIONS

Vision Transformer Classification of Bearing Faults · **First Author**

IEEE ICCIT 2025

- ViT-based fault diagnosis from STFT vibration spectrograms — **99.28% accuracy** on the Paderborn University dataset. DOI: 10.1109/ICCIT68739.2025.11490241.

University Certificate Automation System · **Full-Stack Lead**

Khulna University ICT Cell

- Designed and pitched a full-stack certificate platform covering architecture, security, and deployment. — **Backend · Frontend · Live Demo · Slides**

🔑 SKILLS

LANGUAGES	Python (advanced), JavaScript (ES6+), Java, C++, C, SQL
FRAMEWORKS	Django, Django REST Framework, Vue.js, HTML5, CSS3, REST APIs
INFRA / TOOLS	Docker, AWS, GCP, Linux/Unix, Git, CI/CD, PostgreSQL, Stripe, Keycloak
CORE	Data Structures & Algorithms, System Design, Performance Optimization

🎓 EDUCATION

B.Sc. in Electronics & Communication Eng. — Khulna University

Graduated Jan 2026

- **Coursework:** Data Structures & Algorithms, Database Systems, Computer Networks, OOP.
- **Industrial Attachment (Grameenphone):** Data Science & Engineering Trainee — built a RAG chatbot API using vector embeddings for customer-support automation (Jan–Feb 2025).
